IN STOCK LIGHTS & COLORS

B&B stocks a variety of lighting options and colors of seasonal lighting products. With over 3 million commercial grade lights in our inventory, we can make custom colored C9 strands, and since we rent our lights each year you can choose different colors every season to light up your holidays.

RGB LIGHTING

Using commercial grade RGB lights we can create LED displays that are unique, fun and a showpiece by themselves. With multiple bulb options and creative designs, we can give your display the look you never thought possible.

LED SNOWFALL TUBES

With multiple color options and lengths of 1', 2', and 3' these tubes cascade light down their length to simulate snow or rainfall, perfect in places where normal lights might not be practical or in combination with other lighting elements, they create an illuminating effect.

LIGHTED SPHERES

Our LED lighted spheres are the perfect space filler for nighttime displays or daytime viewing when using grapevine or decorative spheres. An assortment of sizes and color combinations (including RGB) are available to add depth and color to your display. Contact us for more details.

GOLD & SILVER DECORATIVE PIECES

Our pre-lit commercial decorative pieces come in a variety of shapes, sizes and colors. Crafted of welded steel these pieces are built for the elements but with an elegant look to appeal to children and adults alike. Most pieces are available in Warm or Pure white colors and are available in 4', 6' or 10' tall sizes. Stock is limited on these items so the earlier in the season a request is made the more likely it is we will be able to reserve them for you. Available items include:

- Snowflakes
- Reindeer
- Ornaments
- Stars
- Polar Bears
- Gift Boxes (various styles)
- 3D Flower boxes
- Hanging Waves and Chandeliers
- Religious items (North Star, Cross, Dreidel, Menorah {not pictured})

2022-2023 PRODUCT CATALOG

3D AND WALKTHRU PIECES

In recent years display pieces have become synonymous with the holidays and B&B has been working with our partners to showcase pieces that are truly unique. With pieces that are intended to grab attention, joy and conjure warm feelings of the holidays our collection of 3D and walk-thru displays will make any holiday feel special. Among the items in this year's offerings are:

- 17' 3D Snowman
- 10' Penguin
- 10' Teddy Bear
- 6' Puppy
- 7' & 3' Candy pieces
- Various Walk-thru Ornaments, presents and photo-ops (picture frames and angel wings)

2022-2023 PRODUCT CATALOG

OH, DEER!

An unexpected result of the post-pandemic era is the desire for more winter themed displays that allow visitors to enjoy nature. There's nothing more festive and majestic than deer scavenging the forest in a snow-covered backdrop. B&B now carries 7x different highly detailed wireframed bucks varying from 6' to 12' tall in a choice of poses. Whether they be laying in a field, standing proud or looking back at curious guests these display pieces will warm visitors on the coldest of nights. Covered in 1,200-5,000 warm white lights these beauties will definitely stand out.

2022-2023 PRODUCT CATALOG

FIBERGLASS & METAL PIECES

Giant Presents, a Santa sleigh, ornament chairs or stacks of giant ornaments are just some of the fiberglass pieces available. These pieces help attract visitors during the day creating a festive mood even when the sun is shining so you don't have to wait for the sun to go down to be in the holiday spirit. Our Fiberglass and Metal Display pieces are meant to be enjoyed throughout the season. With a wide variety of options and themes we can help create a setting that will please kids, families and adults alike.

CUSTOM DECORATIONS & THEMES

Do you have a fountain or greenspace you don't know what to do with? Is the theme "Candyland" stuck in your head, but you don't know how to make it a reality? Perhaps you're just looking to distract people for a few minutes and put a smile on their faces with something they've never seen before.

B&B can assist with design and planning of a particular space, a theme or making your vision into reality. Our team works year round with clients creating displays that are colorful, vibrant, photogenic and creative using the aesthetics of the location to enhance displays. Contact us today to get started on your next great display.

* Customized pieces can take months to manufacture, please plan accordingly.

2022-2023 PRODUCT CATALOG

GARLAND & WREATHES

Nothing is more traditional for the holidays than greenery. B&B has a wide selection of both unlit and pre-lit artificial garland and wreaths ranging from 36" up to 144" in diameter. Real versions of both are available as well grown in sustainable tree farm in Wisconsin.

TOWER TREES

The traditional looking pre-lit artificial trees we stock are available in 12'-36' heights and "skinny" tree options for narrow spaces. We also have custom trees up to 75' tall when you want to make a large statement. Our modern collection includes unique artistic designs for trees as well (Sphere tree pictured). With many options for light and ornament colors, sizes and styles we're sure to have a look that fits your space.

2022-2023 PRODUCT CATALOG

LIGHTPOLE DISPLAYS

B&B has many options to decorate lightpoles. When power is available we have pre-lit pieces ranging from snowflakes and stockings to candy canes, wreaths and trees. If there's no power to the poles that's not a problem, we have garland, bows, teardrop sprays and unlit wreaths to decorate the poles however you would like. B&B can even do banner changes for you in season or out.

SIGNAGE DECORATION

Do you have building or village signage you would like decorated to create a welcoming feel? We can assist with that as well. We create unique designs based on size and location that are as cost effective as they are beautiful.

PERMENANT LIGHTING

B&B offers permanent lighting solutions for year round displays. Using a track that complements the existing structure of a building the RGB lights are protected from the elements and are hidden during the day or when not in use. This system can be controlled via an app on your phone or a cloud based system that allows you to control from anywhere with an internet connection. This system also allows you to plan up to a year in advance so you can schedule red, white & Blue for the 4th of July, Purple and Orange for Halloween, multi-color for Christmas or just a warm white glow during warm summer evenings. Taking it a step further multiple buildings can be interconnected on the same system so lighting for all buildings within several miles can be controlled together. All with an ROI of less than 5 years vs. traditional lights hung during just the holiday season.
