Design Experience

## No Hassle Holiday Decorating

We include everything needed for a display setup, no timers, cords, shingle clips or best of all lights need to be purchased or provided. Hassle free means you don't have to worry about any decorations outside and if you have a special request (i.e. hang your favorite wreath) as long as it's safe and within reason we'll honor your request.

One of our unique practices is we rent our lights for the season, this means you don't have anything to keep track of at the end of the year and can freely change colors from year to year without concerns about what you own. This helps keep our service hassle free and every year you are able to have a fresh and different display.

To make things even easier all non-weather related service calls are included. Have a strand that's gone out? Lights drooping from a tree? Your timer isn't functioning correctly? Just give us a call and we'll send a service crew out to make the repairs at no additional cost.

## **Any Home, Any Where around Chicago**

Whether a Chicago Bungalow, an estate in the countryside or a subdivision around the city we can do it. Being centrally located near O'Hare Airport we service about 4,000 sq. miles of the Chicagoland Area. We work on any type of home as well; condos, townhomes or single family as long as it meets our minimum threshold we'll meet all your needs.

B&B has 9 crews that service our customers (no sub-contractors), each crew has been fully trained by B&B on installation techniques, safety and are required to meet a checklist for completion of your property. We strive for the highest standards in the industry and demand it of our employees.

## Not Just Lights

B&B has been at the forefront of holiday decorating for 20+ years.
